Terms

The package Mini 50 MB is provided for a period of 30 days, starting from the activation day. The cost of sent/received data in case of expiry of megabytes and validity period of “Internet packages” is calculated as per current tariff plan tariff.

Subscriber can prolong the validity period of the package by activating a new Internet package. During a month subscribers can connect unlimited number of “Internet packages”.

In case of activation of a new package during the validity period of “Internet packages”, the cost of the new package is charged and the megabytes are added to the unused megabytes of the current package, and the validity period is set forth 30 days from the moment of new package activation.

In case of tariff plan change during the activated tariff plan validity period, as well as in case of replacement of telephone number or SIM card and number blocking/unblocking, Internet balance and validity period are preserved.

Upon expiry of the validity period of the package, unused volume of high-speed Internet will be set to zero.

To receive information about unused megabytes of the activated Internet package and validity period one needs to dial:

For Prepaid system subscribers the command (information is provided per kilobytes):*103#

Mini 50 MB package is available for subscribers of all prepaid and postpaid tariff plans except for the Mobile Internet «Infinity», «Drive» and «Basic» tariff plans.

If the remaining balance of activated Internet package is less than 1MB and you simultaneously generate more than one Internet session, in this case the remaining balance of the Internet package will be used only for the first Internet session, all the other sessions will be charged in accordance with your Tariff Plan conditions.

When using Mobile Internet service in roaming, traffic package is not consumed. In roaming, used megabytes of Mobile Internet are charged in accordance with corresponding tariffs of Internet traffic in roaming.

«Internet packages» includes the traffic intended to passes over internet.beeline.am, default.beeline.am and wap.beeline.am access points.

All prices are indicated in AMD, including VAT.
