## Midi $\mathbf{2 5 0}$ MB

Fee
Internet-Package Midi 250 MB
600 AMD

## Details

## To prepaid system subscribers

- The package Midi 250 MB is provided for a period of 30 days, starting from the activation day. The cost of sent/received data in case of expiry of megabytes and validity period of "Internet packages" is calculated as per current tariff plan tariff.
- Subscriber can prolong the validity period of the package by activating a new Internet package. During a month subscribers can connect unlimited number of "Internet packages".
- In case of activation of a new package during the validity period of "Internet packages", the cost of the new package is charged and the megabytes are added to the unused megabytes of the current package, and the validity period is set forth 30 days from the moment of new package activation.
- In case of tariff plan change during the activated tariff plan validity period, as well as in case of replacement of telephone number or SIM card and number blocking/unblocking, Internet balance and validity period are preserved.
- Upon expiry of the validity period of the package, unused volume of highspeed Internet will be set to zero.

## To postpaid system subscribers:

- Upon service activation Internet package is provided also for the next months at the beginning of each month till deactivation, for corresponding package monthly fee. Internet package is fully provided on the first day of the month in case of connection to the package. In case of connecting on another day, the
package cost and the MBs provided with the package are calculated in accordance with the period starting from the package purchase day till the end of the given month.
- In case of not using all the megabytes, provided for the given month, they are not transferred to next month. In case of using the megabytes of the Internet package during the month, the cost of sent/received data is calculated as per the tariff of the active tariff plan.
- In case of connecting more than 1 package during a month, the megabytes, included in them are accumulated and in the next month the subscriber receives total megabytes of all connected packages, corresponding package cost is charged from the subscriber for each package.
- To change/deactivate Internet package one need to apply to Beeline Sales and Customer Care Offices or Customer support service (0628) and to submit an application about current package change/deactivation. Package change/deactivation will be made on the last day of the current month.
- In case of tariff plan change during the validity period of the activated package, as well as telephone number and SIM card replacement and in case of number blocking/unblocking, internet balance and validity period are not preserved.

If the remaining balance of activated Internet package is less than 1 MB and you simulteniousely generate more than one Internet session, in this case the remaining balance of the Internet package will be used only for the first Internet session, all the other sessions will be charged in accordance with your Tariff Plan conditions.
