Special offer was available only for new fixed internet subscribers and without any further obligations.

To avoid additional charges it is recommended to change the tariff plan in the first days of the month.

Postpaid COMBO tariff plan is fully available on the first day of the month when you join the package. In the event of joining another day, the subscriber fee and the minutes, SMS and MBs provided by the package are calculated by the end of the month.

In case of terminating the contract on mobile communication services provision unused means on the balance of the subscriber at the moment of termination of the contract are not returned.

The operator monthly provides invoice to subscriber for provided services (at the end of billing cycle) according to the operator's actual tariffs.

Mobile services

Free of charge services of additional cards are provided for a period of 30 days, on the 1st day of each month.

If the primary card is blocked, the additional services of the additional cards are suspended.

Upon primary card termination, additional cards packages are permanently disconnected and not restored. However, additional telephone numbers can be used as prepaid cards.

If the internet package has expired

You can turn on main phone number:

- Internet Packages: Internet 500 MB , Giga 1 GB, Giga 5 GB, Giga 10 GB, Giga 15 GB.
- Mega 200 or Mega 500 services.

Important! When "Mega" service is activated, it has a higher priority, i.e. after consuming the free "Mega" internet package and in case of main number free service package availability, 1 MB price is 5 AMD until the service is disconnected. In this case TeamTV app Internet traffic is also charged. The MBs provided by the service will be exhausted in parallel with the MB package included in main number service package.

You can activate the "Online" service for additional mobile numbers - 500 minutes for calls within Team network and 1 GB of mobile Internet for 500 AMD. Details.

TP Combo procedure (duplicate)

## **Yandex applications**

Internet usage is 0 MB when using Yandex Taxi, Navigator, Disc, Music applications.

When applications are used during tariff plan active period, the Internet megabytes included in the package are not used, and the Internet is not charged.

In the Yandex Disc app, COMBO Special subscribers will receive 50 GB of cloud storage.

To activate the provided GB, you need to send a request via \*511# command, and after that you will receive the activation code. The code must be entered into the Yandex Disc application in the appropriate provided field.

When using all 4 Yandex applications, on the 31st day billing will be applied in accordance with the tariff plan from COMBO service package mobile Internet.
