Terms and Conditions

A VDSL modem is provided for accessing fixed internet services.

A prepaid mobile number is also provided with no mobile service inclusions.

After the 2-month trial, the fixed internet service will be suspended.

The subscriber must select one of the available COMBO service packages either during the trial or within 30 days after the trial ends.

If no package is selected within that period, the fixed internet connection will be terminated.

In that case, the subscriber must return the modem within 30 days following the end of the trial.

No term-based contract is signed during the trial period.

The “2-month trial” offer is available only to new subscribers of fixed internet services via VDSL technology.

A new subscriber is defined as someone who has never had a Team fixed internet subscription or whose previous fixed internet contract was terminated before the launch of the “2-month trial” offer.

The offer is available for individuals and subscribers of the “My Company” service.

The offer is currently valid only in the following locations: Abovyan, Artashat, Vayk, Goris, Stepanavan, and Vardenis.
