Internet (1 MB)	15.9 AMD/min

Neo Max + 2 SIM

The contract is concluded for 24 months, with the possibility of further extension. If the contract is not extended, after 24 months, the standard tariffs for Neo (Neo Regional 3000) and Neo Max (Neo Regional 3500) service packages will apply.

1. New and existing subscribers can switch to the “Neo Regional” package and receive 2 SIM cards as a gift completely free of charge.
2. The additional SIM cards include: Unlimited calls within the group, 100 MB mobile internet, 10 TeamTV channels.
3. Free services on the additional SIM cards are valid for 30 days, in line with the main package’s validity period.
4. If the main package payment is not made after 30 days, the free services on the additional SIM cards will be deactivated.
5. The provided free MBs are reset and do not roll over to the next month.
6. The main package and the additional SIM cards must be registered under the same person’s name.
7. If the main SIM card is deactivated, the additional SIM card packages will be permanently disconnected and cannot be restored, but the SIMs can still be used as prepaid cards.

TeamTV

TeamTV mobile television operates without consuming internet megabytes and is available throughout the entire territory of the Republic.

The main COMBO SIM provides access to 15 TV channels, and each additional SIM provides access to 10 TV channels via the TeamTV app.

For new subscribers, access to the free TeamTV channels is activated automatically.

Existing subscribers can obtain their TeamTV login and password by dialing *818#.

In case of lost login or password, dial *812# to recover them.

Using the TeamTV app without consuming megabytes means that if you have an active Neo package, watching via the Team mobile internet (3G or 4G LTE) will not consume your included MBs and no additional charges will apply.

The TeamTV app is available for all smartphones and tablets running iOS 14.0 or Android 6.0 and above.

Broadcasting is carried out by "TEAM" CJSC.

If the internet package has expired

You can turn on:

- Internet Packages: [Giga 1+1 ₴, Giga 2+1 ₴, Giga 5+1 ₴, Giga 10 ₴, Giga 15 ₴](#);
- [Mega 300](#) or [Mega 500](#) services.

Important! When "Mega" service is activated, it has a higher priority, i.e. after consuming the free "Mega" internet package and in case of main number free service package availability, 1 MB price is 5 AMD until the service is disconnected. In this case TeamTV app Internet traffic is also charged. The MBs provided by the service will be exhausted in parallel with the MB package included in main number service package.
